

THE FORMWORK

NOE[®] top R

Formwork frame for
free choice of facing

NOEtop R – Formwork frame for free choice of facing

NOEtop R considerably extends the range of use of the NOEtop formwork system. Top hat profiles with plastic strips are integrated into the frame panels with integrated bracing members. This allows the formwork facing to be attached irrespective of the panel layout.

Your advantage:

NOEtop R is integrated into the proven NOEtop formwork system. This means it can be used with the same accessories etc. as the NOEtop formwork system

■ Panel dimensions:

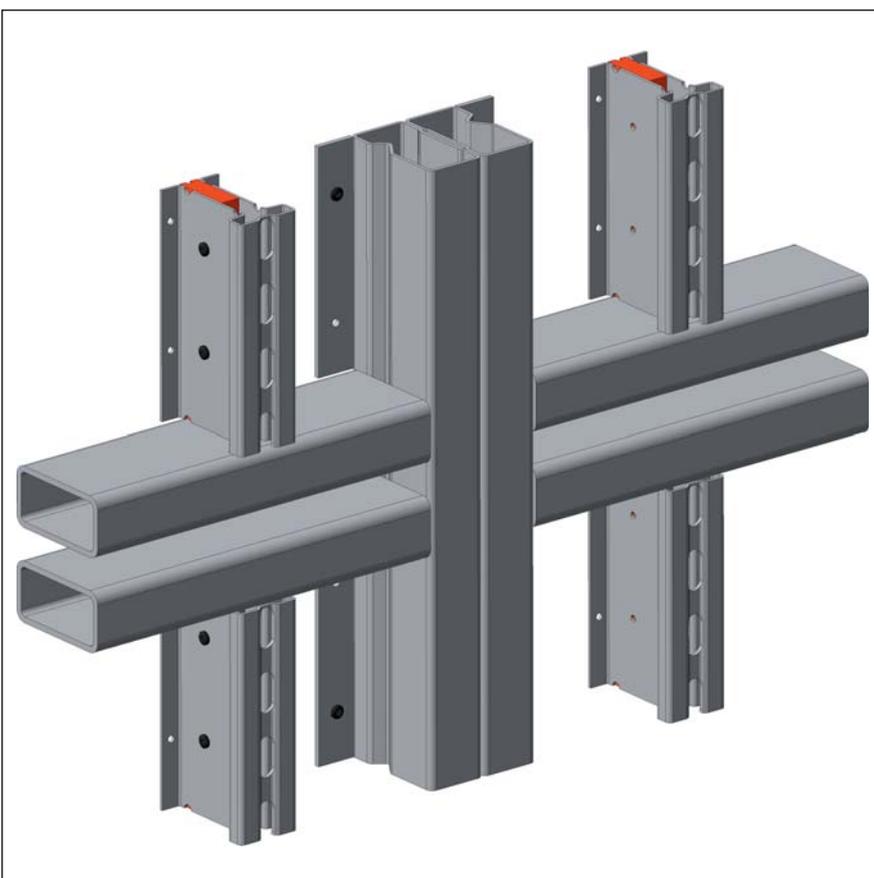

Heights
3310; 1325 mm,
Widths
2500; 2000; 1000; 750; 200 mm,
Internal corner (without facing)
473 x 473 mm

■ Nailing strips inserted into top hat profiles

■ Facings can be screwed on from the front or the back

■ Free choice of facing, frame butt joints can be ignored

■ NOEtop panels and NOEtop R panels can be combined
